Features / Comments

PHEV stands for Plug In Hybrid Electric Vehicle. The Eclipse Cross AWD is a fantastic car that runs on petrol engine as well as electric power!!!! You can charge the battery while you drive, as well as plug it in to your normal household plug to charge. These cars have great pick-up and are fantastic for whipping around town and longer trips too. You can let the car do it's own thing and just drive it...or you can choose electric only, charge mode (petrol driven) or battery save mode.
